Wide Eyed Tours philosophy of travel is one of respect towards everyone we encounter, and in particular the local people who make our destinations such special places. The exploitation of prostitutes is completely contrary to this philosophy. Our group leader has the right to expel any member of the group if drugs are found in their possession or if they use prostitutes.

***Angkor Wat***

The temples of Angkor, built by the Khmer civilization between 802 and 1220 AD, represent one of humankind's most astonishing and enduring architectural achievements. From Angkor, the Khmer kings ruled over a vast domain that reached from Vietnam to China to the Bay of Bengal. The structures one sees at Angkor today, more than 100 stone temples in all, are the surviving remains of a grand religious, social and administrative metropolis whose other buildings – palaces, public buildings, and houses – were built of wood and are long since decayed and gone.
